# How to make paper flowers

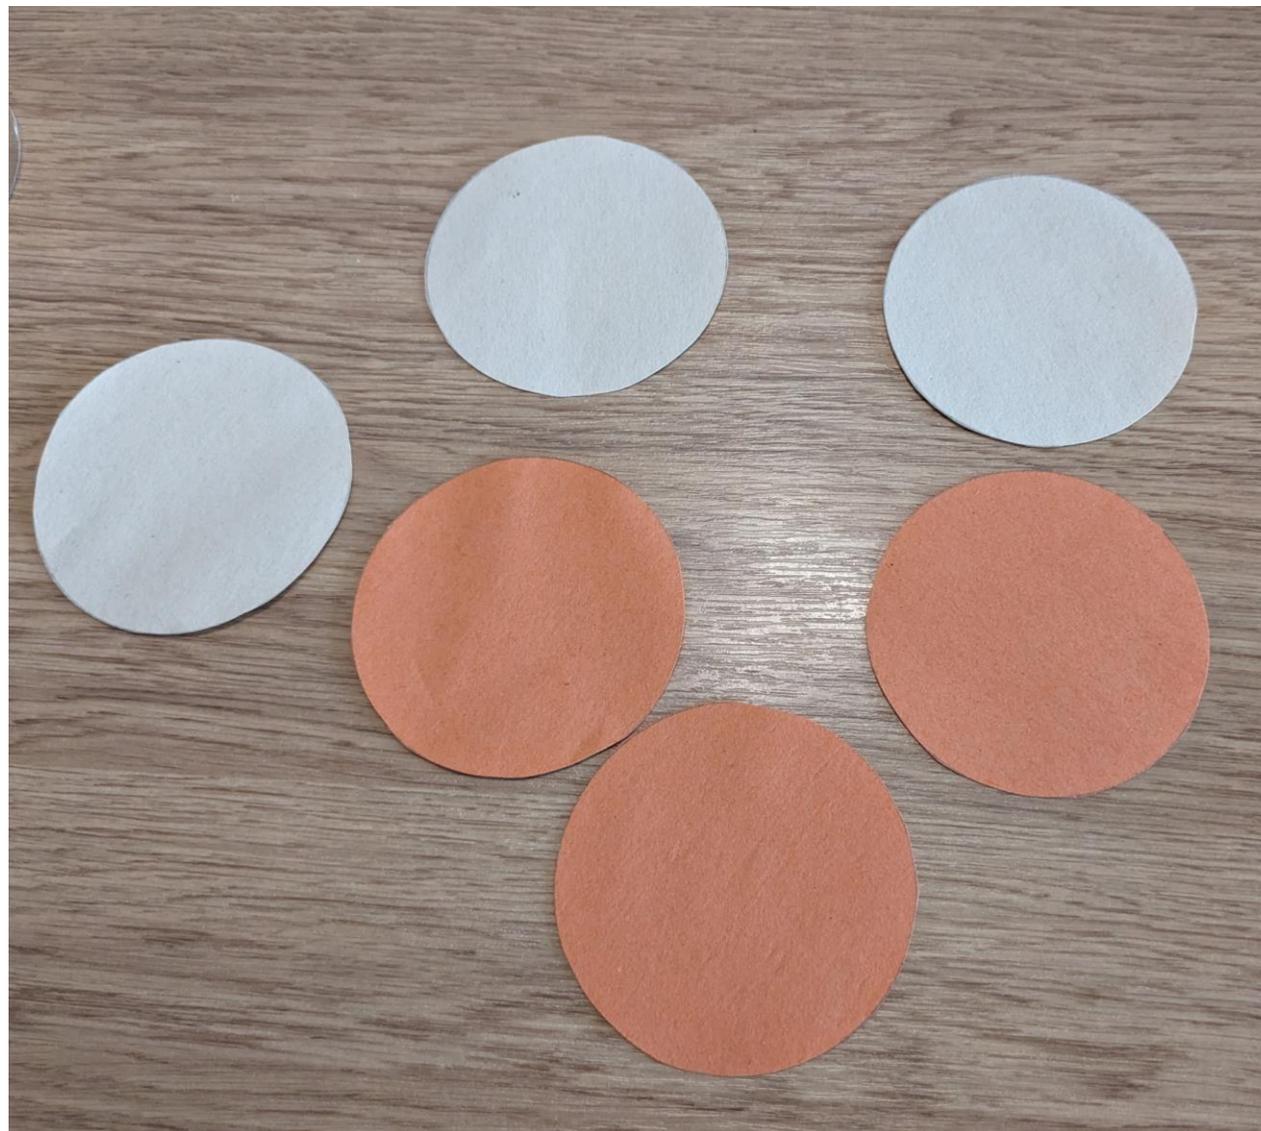

---

You will need - paper, something circular to draw around, scissors, a pencil, a stick, some glue  
and some green tape.

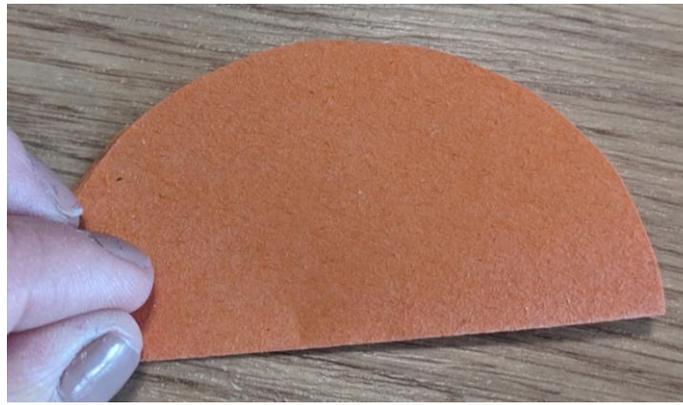

*Draw 6 circles  
on your  
chosen paper*

*Cut them out  
carefully*

*Fold each circle  
in half, half  
again and half a  
third time.  
Then cut the  
corners to it looks  
like a petal.  
Unfold it.  
Repeat for all 6  
flowers.*

*You now  
have 6  
flowers.*

# We now need to cut off some petals.

1<sup>st</sup> flower - keep the same

2<sup>nd</sup> - cut off one petal

3<sup>rd</sup> - cut off 2 petals

4<sup>th</sup> - cut off 3 petals

5<sup>th</sup> - cut off 4 petals

6<sup>th</sup> - cut off 5 petals

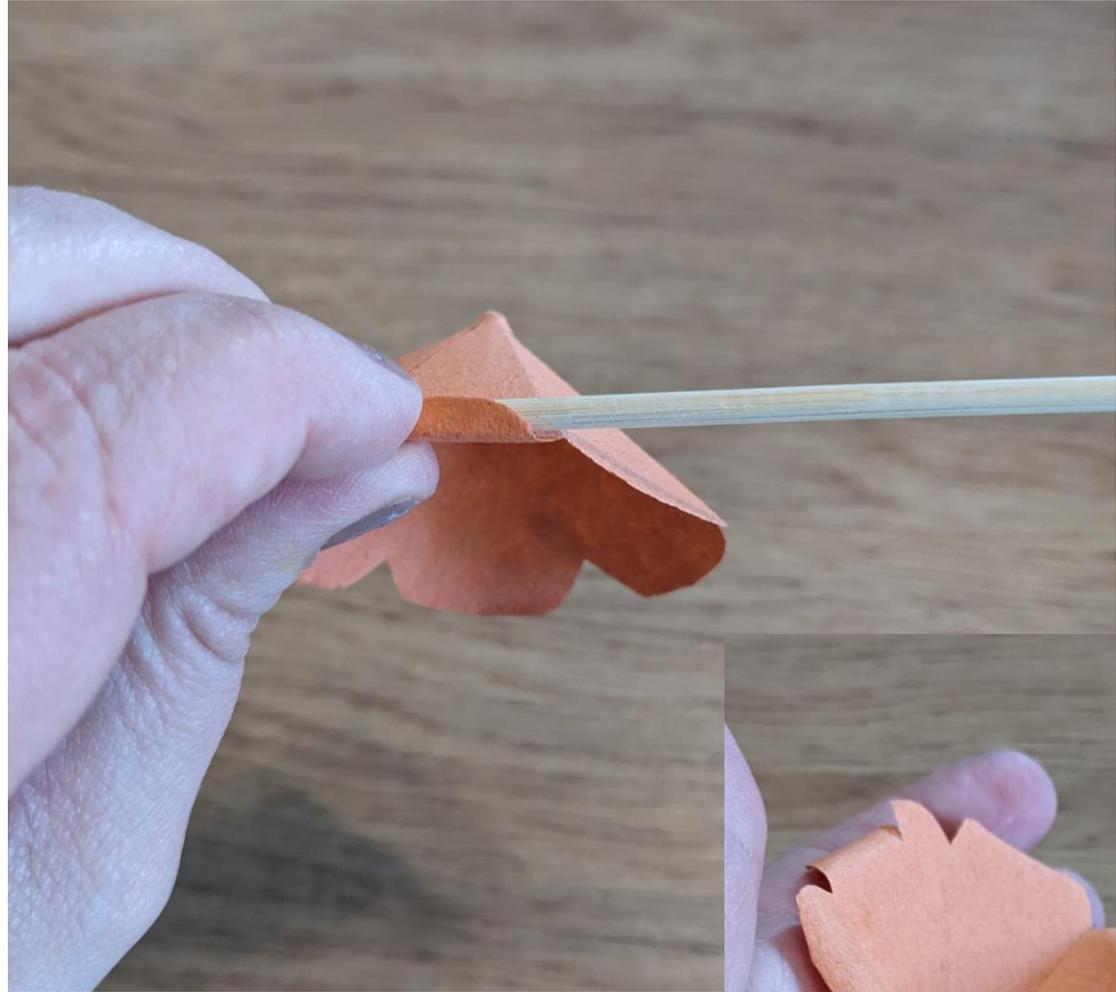

Lay them  
out in  
order.

Now we are  
going to glue  
one petal to  
another.

Now use your  
stick to curl  
each petal over.  
Do this for all 6  
flowers.

# We are now going to start building your flower.

Slide on the smallest flower first and then add some glue to the outside of the petals at the bottom. Slide on the next flower and pinch it so it sticks to the glue. Add glue to its petals and add the next flower. Repeat until you have all the flowers on.

Your flower  
should look  
like this.

You can add  
some green  
tape to the  
bottom to  
secure it to the  
stick.

Now you can  
make some  
more flowers to  
create a bunch  
of them.
